Simply *better* pricing.

As a company focused exclusively on RIAs, we understand the impact that our products, service model, and fees have on your clients. Our fees should always be simple, transparent, and as good or better than the most competitive legacy alternatives—never getting in the way of your ability to give authentic advice. Processing and service fees assessed by third parties may be passed through to the customer's account. Some products and services may require additional fees or transaction minimums not specifically listed here. Prior to placing a trade or requesting any services, it is the customer's responsibility to ask Altruist Financial if any additional fees will apply.

² Listed fee will apply once feature becomes available.

³ Commission-free trading refers to \$0 commissions for Altruist Financial brokerage accounts that trade US listed equities, ETFs and warrants via web or mobile devices. The trading of ADRs and Over-the-Counter securities are subject to additional fees which may be passed through to you.

⁴ Mutual Fund Trade fees apply to trades greater than or equal to \$1,000. Mutual fund trade fees are calculated using the prior day's NAV. Because of this, trades executing at less than \$1,000 may still incur the Mutual Fund fee. The following fund families will incur a reduced transaction fee of \$5.00: Vanguard and Dimensional Fund Advisors (DFA), including their Money Market Fund offerings.

⁴ Altruist reserves the right to change the funds made available without transaction fees.

⁴ Altruist Financial LLC may receive remuneration from transaction fee fund companies for certain administrative services. This may create a conflict of interest as Altruist could earn more compensation from no-transaction-fee funds than it could earn from other funds available, including funds with a transaction fee.
