Overview

Altruist Financial LLC (“Altruist”; “the Firm”) has created and implemented a Business Continuity Plan (“BCP”) in an effort to mitigate the effects related to unforeseen business interruptions. The BCP is designed to enable the Firm to continue or resume trading operations as soon as possible in the event of an emergency or significant business disruption (“SBD”).

Communications and Locations of Employees During a Disruption

In the event of an SBD, Altruist will communicate with its employees in several different ways. The Firm will make use of its “Messaging App” or by employ a calling tree, which would be implemented by management in the event of an SBD. Recovery time for most of the applications is expected to range from immediate to 24 hours.

Communications with Customers

Altruist is currently able to communicate with its customers using the telephone, email, US Mail, and in person. In the event of an SBD, Altruist will assess which means of communication are still available and use the means closest in speed to the means used in the past. Additionally, if all traditional means of communication are not available, Altruist will post emergency contact information and instructions on the web site of its auditors Ernst & Young regarding access to Altruist representatives in California.

Books & Records

Altruist maintains its hard-copy books and records and electronic records primarily at its Main Office and back-up books and records at alternate locations. If records are lost as the result of a business disruption or for any other reason, Altruist has the means to physically recover data from both physical and electronic back-up locations.

Vendors and Counterparties

Altruist's BCP may need to rely upon the recovery and restoration of services provided by various critical business constituents at both its primary and alternate business locations. Altruist has considered the extent to which the Firm may be able to depend upon these business relationships during an SBD as a part of its decision to do business with the constituent. Where possible the Firm has engaged and/or vetted alternate arrangements in order to avoid business disruptions in the case of a business constituent not being able to provide needed goods or services in an emergency.

Disclosure

Altruist's BCP is designed to address the continued operation of the Firm in the event of an emergency situation or SBD. However, all risks of business interruption cannot be eliminated and Altruist cannot guarantee that systems will always be available or recoverable following an SBD. Furthermore, Altruist has no control over and must rely upon the disaster recovery plans of its various critical business constituents and vendors. In the event that material changes are made to this BCP disclosure statement, Altruist will send an updated copy to all of its clients.

The information contained in this disclosure is provided by Altruist for informational purposes only, and nothing contained herein shall be construed to amend, supplement or otherwise modify any of the terms and conditions set forth in any customer agreement between you and Altruist.
